

Lever Branchpipe Nozzle with Water Curtain

Characteristics

A multipurpose nozzle which comes with water curtain facility. The water curtain offers the operator a mist of water from the nozzle to protect from heat. A lever is used to control the jet, spray and shut off function. The water curtain facility can be adjusted during use by twisting the bumper ring.

CMM Jet/Spray Branchpipe Water Curtain

Material: Aluminium

Inlet: • 2.5" Male Inst (BS336) • 2" Male BSP

Outlet: • 9mm Tip • 12mm Tip

Max Working Pressure: 16 Bar.

Spray Angle: 15-20°

Throw Distance (Full Jet): 27m

Throw Distance (Spray Jet): 13m

CMM Jet/Spray Branchpipe Water Curtain

Material: Aluminium

Inlet: • 2.5" Male Inst (BS336) • 2.5" Male BSP

Outlet: • 16mm Tip • 19mm Tip

Max Working Pressure: 16 Bar.

Spray Angle: 15-20°

Throw Distance (Full Jet): 32m

Throw Distance (Spray Jet): 14m
