

## Manual Turbo Nozzle

### Characteristics

The manual turbo Nozzle is ideal for Fire Fighting and heavy washdown applications. It has a simple stirrup handle with on/off operation together with a manual adjustment for regulation of the water flow. Twisting of the sleeve through three pre-set positions allows the water to be changed from full jet to spray (120°).

### Further Data

<b>Material:</b>	Light Alloy, Anodised, Polyamide.
<b>Inlet Connection:</b>	2" Male BSP thread Fixed Male Instantaneous Other international Fire and Industrial connections available
<b>Working Pressure:</b>	16 Bar
<b>Weight:</b>	1.7Kg
<b>Dimensions:</b>	240mm x 100mm x 233mm
<b>Performance Data:</b>	Flow Range (l/min @6 Bar) 140-230

### Sample Connection Options

Instantaneous connection

Storz connection

Rotta connection
