

Multifire Branchpipe Nozzles

A multipurpose nozzle suitable for Industrial and Marine applications. Encased in Rubber the nozzle is very robust and shock resistant. Twist grip function allows the operator the option of Jet, Spray and Shut-Off function.

Multifire Nozzle

Material: Chrome Plated Brass/Rubber

Inlet: 1" BSP Female

Max Working Pressure: 10 Bar.

Flow Rate/6 Bar:

- Straight Jet- 130 l/min
- 60° Cone Fog- 200 l/min

Throw Distance/6 Bar:

- Straight Jet- 28m
- 60° Cone Fog- 12m

Weight: 0.70kg

Length: 115mm.

Characteristics: A small lightweight Nozzle.

Any inlet connection can be made using a 1" Male BSP threaded adaptor.

Multifire Branchpipe

Material: Chrome Plated Brass/Rubber

Inlet: 2" BSP Female

Max Working Pressure: 10 Bar.

Flow Rate/6 Bar:

- Straight Jet- 130 l/min
- 60° Cone Fog- 200 l/min

Throw Distance/6 Bar:

- Straight Jet- 28m
- 60° Cone Fog- 12m

Weight: 1.69kg

Length: 315mm.

Characteristics: A very robust Branchpipe.

Any inlet connection can be made using a 2" Female Threaded adaptor.
