

GRP Cabinets

Robust storage solutions for hose equipment suitable for internal and external use. The material of the body and door are manufactured from glass reinforced polyester resin (GRP) with a continual stainless steel hinge, fitted with internal steel reinforcement to facilitate wall mounting.

Red to BS4800 (04-E-53) as standard with other colours available upon request. Available in three differing capacity sizes to store a broad selection of equipment.

Model Name	Dimensions (mm)	Description
Model MFH 1 Single cabinet	680 x 785 x 260	Suitable to accommodate a single hose coil with branchpipe
Model MFH 2 Double Cabinet	685 x 785 x 340	Suitable to accommodate two hose coils with branchpipe
Model MFH 3 Quad Cabinet	740 x 1315 x 385	Suitable to accommodate four hose coils, a standpipe, key & bar and branchpipe

Further Options: Floor Mounting Facility, alternate locking facilities.
