

## Hose Vulcaniser

Our Pronto P 10 hose vulcaniser is for the repair of layflat delivery hoses with external patches. Suitable for uncoated, PU-coated and covered fire hoses. The automatic temperature control prevents overheating.

The movable support gives a uniform pressure during the vulcanisation process.

### KEY PARTS :

- 1 Clamping Lever
- 2 Heating Unit
- 3 Protective Rubber Pad
- 4 Warning Light
- 5 Timer

Technical Specification	
Voltage (AC)	230V-50/60 HZ
Power	600W
Temperature Range	135-160 °C
Timer up to 60 min.	bis 60 min
Packing Dimensions	420mm (w) x210mm (d) x560mm (h)
Weight	7.5kg
Heating Unit Size	175mm x 100mm
CE - Conformity	EN 292-2-1992/ EN 60204-1-1993
